FASTABS — THREE WAY DISTRIBUTION — PPREP BY FCON BY GENSER

THERE WAS SIMPLY NO NEED TO RUN THIS SERIES THROUGH THE COMPUTER BECAUSE ON THE ORIGINAL REPORTINGS OF PREP, THERE WAS THE HEALTHY AVERAGE OF 15 OF 16 REPORTINGS, MAKING THE AVERAGE OVER 90%. THUS, ALL INFORMATION CONCERNING THE OCCUPATIONAL POSITIONS OF THE FATHERS OF PRESIDENTS ALK REQUESTED IS LOCATED ON # 14.

FASTABS — THREE WAY DISTRIBUTION - PPRENQ BY FCON BY GENSOR

THIS SERIES, AS OUTLINED ON #17, WILL COMPARE BASIC FACTUAL OBSERVATIONS WITH #15. NO DIFFERENCE IN RESULTS.

P. PRES. DES ENG		PRES DES ENG.
20	TOTAL CASES STUDIED	20
26	TOTAL NUMBER INVOLVED	26
6	MISSING OBSERVATIONS	6

THERE REPORTING PERCENTAGE IS RESPECTFUL (OVER 75%) AND THE RUNNING OF THE P SERIES DID NOT IMPROVE UPON THIS FIGURE. THE RESULTS CONCERNING THE OCCUPATION OF THE FATHER DIVIDED BY THE FALLACIES PRODUCED NO MEASURABLE BENEFIT SINCE THERE WERE ONLY 26 INDIVIDUALS INVOLVED BEFORE THEY WERE FURTHER SUBDIVIDED BY GENERATIONS.

FASTABS – THREE WAY DISTRIBUTION – PPREM BY FCON BY GENSER

THERE IS NO COMPARISON HERE BECAUSE NO # 16 WAS NEVER RUN THROUGH THE COMPUTER. IT WAS DETERMINED THAT THE COVERAGE RECEIVED WITH THE P SERIES WOULD PRODUCE GREATER RESULTS. IN THIS PARTICULAR STUDY, ALL THE PRÉSIDENTS À MORTIERS ARE TREATED WITH NO MISSING INFORMATION.

— TOTAL NUMBER OF CASES STUDIED	16
— TOTAL NUMBER OF PRES. INVOLVED	16
— MISSING OBSERVATIONS	0

THE BREAKDOWN ACCORDING TO BEFORE AND AFTER THE PAULETTE IS OF NO VALUE WHATSOEVER. THE USE OF 1605 IN THE CASE OF THE PRÉSIDENTS À MORTIER IS HIGHLY OUT OF BALANCE ANYWAY. FOLLOWING THIS EXPLANATION ARE THE STATISTICAL PROFILES OF THE FATHERS OCCUPATIONS:
NOT BY GENERATION SINCE THE SMALL NUMBERS WOULD MEAN PRACTICALLY NOTHING.

MEM OF PARLS P.	FINANCE MINISTRY	H. ROYAL ADMIN	L. ROYAL ADMIN.
11	3	1	1

PERCENTAGES MUST BE COMPUTED SEPARATELY ON THE BASIS OF 16. RESULTS DEMONSTRATE THAT THE OVERWHELMING MAJORITY OF PROFESSIONAL BACKGROUNDS OF THE FATHERS CAME FROM THE PARLEMENT.
